Description

A dance choreography entry must be an original choreographed dance. The choreography must be the work of one student and must demonstrate creativity and interpretation of the current National PTA Reflections® Program theme.

The choreographer may be the performer or one of the performers, but the choreographer does not have to perform in the entry.

Whether an entry uses a variety of techniques or a simple approach, it will be judged primarily on how well the student uses his or her artistic vision to portray the theme. Therefore, it is very important that the student show a clear relation of the dance choreography to the theme. The connection should be made evident through the use of song(s), props, and the dance itself.

Traditional Dance: The modification of the steps and the interpretation of the dance are considered when judging a traditional dance for creativity and/or originality. An explanation of the origin of the dance and/or the significance of the choreography might be a useful addition to the artist statement when submitting a dance choreography entry that involves traditional, cultural or regional dances.
